

## Riex ES25 Seitliche Abdeckung, Schwarz (Paar)

### Parameter

Marke	Riex
Farbe	Schwarz
Material	Kunststoff

### Produktbeschreibung

These side end caps are a small yet essential detail for a truly finished ES25 door system. Installed on the lateral ends of the top profile where the front cover cap is fitted, they close off the open profile end and create a clean, professional edge-to-edge appearance. Beyond aesthetics, the caps also help protect the profile edges from dust build-up and minor knocks during everyday handling and cleaning, keeping the installation looking sharp over time.
