### Produktbeschreibung

Riex ND30 Inner Drawer Accessories, Front Square Railing, 1200 mm The Riex ND30 front square aluminium railing enhances the design and functionality of inner drawers. Crafted for precision, this railing can be adjusted to fit the specific width of your drawer. It integrates seamlessly into the system by attaching to the front panel holders and snapping securely into the side panels of the drawer. Key Features: Modern Aesthetic: Stylish square railing design, enhancing the modern aesthetic of ND30 drawer systems. Customizable Length: Fully customizable length, easily shortened to fit the internal drawer width. Durable Construction: Constructed from aluminium for durability and a premium look. Seamless Integration: Specifically designed for ND30 inner drawers, providing seamless integration. This front square railing combines functionality with contemporary design, making it an essential component for upgrading and personalising your ND30 drawer system.
