Produktbeschreibung

Riex ND30 Inner Drawer Accessories, Front Panel, 1200 mm The Riex ND30 Front Panel is a key component for assembling ND30 internal drawers, ensuring a seamless fit and a sleek finish. This aluminium front panel needs to be shortened by 90 mm compared to the internal width of the cabinet (LW), providing a perfect alignment for your drawer system. Key Features: Aluminium Construction: Aluminium construction for practical and modern aesthetics. Designed for Compatibility: Designed specifically for ND30 internal drawers, ensuring compatibility and easy installation. Precise Fit: Needs to be precisely shortened by 90 mm to match the internal cabinet width (LW). Elegant Finish: Ensures a clean, elegant finish for your drawer assembly. This front panel is an essential accessory for creating a functional and visually appealing ND30 drawer system, offering both versatility and style.
