### Produktbeschreibung

Riex ND60 Reduction 18 -> 16 mm The Riex ND60 plastic reducer is an accessory for adjusting the space within the ND60 drawer system. Designed to optimise the drawer's functionality, this reducer effectively narrows the bottom slot from 18 mm to 16 mm, ensuring compatibility with specific drawer configurations. Key Features: Seamless Adaptation: Narrows the bottom slot from 18 mm to 16 mm. ND60 Compatibility: Crafted specifically for the ND60 drawer system. Easy Installation: Provides a secure and stable fit. Durable Plastic: Made for long-lasting performance. This reducer simplifies customisation and enhances the versatility of your ND60 drawer system, ensuring precision and reliability.
