

Spax Schrauben, 4,0x20mm, TX(T20), Senkkopf, Vollgewinde, Schwarz verzinkt (Packung 200 Stück)

Parameter

Marke	Spax
Kopfform	Senkkopf
Durchmesser	4 mm
Antriebsart	TX
Katalog Seite	14.9
Länge	20 mm
Farbe	Zink Schwarz

Produktbeschreibung

Spax Screw for Chipboard, Countersunk Head Spax chipboard screws are a trusted solution for secure and aesthetic fastening in wooden materials. Designed with precision and engineered for performance, they feature a flat countersunk head that ensures a clean, flush finish. Available in a broad spectrum of diameters, lengths, drive types, finishes and thread configurations, Spax screws offer unmatched versatility and holding power. Whether used in furniture production, cabinetry or general woodworking, these screws embody the quality and innovation that define the Spax brand. Key Features: Broad range of sizes, thread types and head designs for flexible use Flat countersunk head provides seamless integration with the surface Available with full or partial thread for different joining methods Advanced coatings like WIROX ensure long-lasting corrosion resistance 4CUT tip minimizes wood splitting, even close to the edges Cross recess Z drive ensures a secure grip and minimizes bit slippage (anti cam-out effect) T-STAR plus drive offers effortless installation and precise positioning Manufactured by Spax - a leader in fastening technology for wood applications
