

Spax Schrauben, 5,0x20 mm, TX(T20) Halbrundkopf, Teilgewinde, Weiß verzinkt (Packung 1000 Stück)

Parameter

Farbe	Weiß verzinkt
Marke	Spax
Katalog Seite	14.7
Kopfform	PAN
Antriebsart	TX
Länge	20 mm
Durchmesser	5 mm

Produktbeschreibung

Screw for Chipboard, Pan Head Spax chipboard screws are versatile and reliable fasteners, ideal for woodworking and chipboard assembly. Available in various sizes, they feature options for both full and partial threads, ensuring optimal hold and flexibility for different applications. The pan head design with a PZ and TX drive ensures easy and secure installation, while the white zinc coating provides excellent corrosion resistance, making them durable for long-term use. Perfect for professionals and DIY enthusiasts alike, these screws come in convenient bulk packs, catering to projects of all scales. Key Features: Available in various diameters and lengths Choose from full-thread or partial-thread options for tailored use Pan head provides large contact surface, ideal for metal fittings 4CUT technology on the tip for easy cutting through wood WIROX Coating - Superior corrosion protection for outdoor use (not directly exposed to weather). Cross recess Z drive ensures a secure grip and minimizes bit slippage (anti cam-out effect) T-STAR plus drive offers effortless installation and precise positioning Manufactured by Spax - a leader in fastening technology for wood applications
