Product description

Italiana Ferramenta Pull-in Corner Bracket The Italiana Ferramenta Pull-in Corner Bracket is meticulously crafted to ensure a seamless and secure joint between panels. Thanks to its specially designed section, achieving a side-to-shelf or back-to-side pull is effortlessly achieved by screwing in two Euro screws with flat countersunk heads, depending on the intended use. Built from high-quality zamak, this product is available in an exquisite nickel-plated finish. Key Features: Secure Joints: Ensures a seamless and secure joint between panels. Specially Designed Section: Allows for easy side-to-shelf or back-to-side pull. High-Quality Material: Constructed from high-quality zamak. Nickel-Plated Finish: Available in an exquisite nickel-plated finish. Easy Installation: Fixes with two Euro screws with flat countersunk heads.
