Product description

Riex GP68 Corner Pull-out Baskets with Door Attached, Frame with Mechanism The Riex GP68 pull-out system provides a functional and stylish storage solution for lower corner cabinets. Designed with integrated door-mounted mechanics, it ensures easy access to items while maximizing space efficiency. Key Features: Innovative design with doors mounted directly on pull-out mechanisms. Complete set includes frame, moving components, and full-bottom baskets (baskets and corner mechanism sold separately). Durable construction supports 5 kg on front shelves and 8 kg on rear shelves. Sleek finish complements modern kitchen aesthetics. Brackets for hanging baskets are included in the basket set. Brand: Riex. Elevate your kitchen organization with the Riex GP68 system, offering seamless access and exceptional durability for corner cabinet storage.
