Product description

Riex JC60 Shelf Pin Support for Glass 5/5 mm, Nickel Plated (pack 1000pcs) The Riex JC60 is a classic cylindrical shelf support specifically designed for glass shelves. With a precise outer and inner diameter of 5 mm, it ensures a stable and secure fit. The rubber sealing protects the glass surface, preventing scratches and offering additional grip for stability. The nickel-plated finish provides superior corrosion resistance and a polished appearance, making it suitable for residential and commercial furniture applications. Its minimalist design ensures seamless integration into modern furniture styles. Key Features: Cylindrical shelf support designed for glass shelves Equipped with rubber sealing to protect glass surfaces and enhance stability Outer/inner diameter: 5 mm/5 mm for precise and secure installation Nickel-plated finish for durability and corrosion resistance Ideal for modern furniture in residential and commercial spaces
