Descripción del producto

Riex NU69 Concealed Slide, Full Extension, Soft-Close, 25 kg, 2D Brackets The Riex NU69 concealed drawer slides provide an innovative under-mount solution for wooden drawers, combining full-extension access and smooth soft-close operation. Designed for optimal performance and ease of use, these slides are ideal for modern cabinetry. Key Features: Full-Extension Access: Full-extension slides allow the drawer to extend completely, providing full access to its contents. Soft-Close Technology: Features soft-close technology for silent and effortless drawer closing. Under-Mount Installation: Designed for all-wood drawers with concealed under-mount installation. Loading Capacity: Supports a total load capacity of 25 kg, including the drawer's weight. Precise Adjustments: Includes 2D adjustment brackets, enabling precise vertical (up and down) and horizontal (left and right) adjustments of the drawer front. Only length 250 mm has 0D brackets. Achieve seamless operation, precision, and style with Riex NU69 concealed slides, perfect for enhancing the functionality and appearance of your wooden drawers.
