Описание продукта

Riex NC40 Mounting Plate for Hinge Clip-On, H4 Clip your hinge onto this mounting plate. Featuring a basic height of H4, it ensures flexibility and precision for various applications. Key Features: Raised Height H4: Primarily designed for inset hinges and thinner materials, compensating for thinner side panels with a 4mm height. Oval Holes: Allows for screwing with standard screws and offers possible vertical adjustment of the door. Multiple Installation Options: Can be installed using screws or pre-installed euroscrews. CAM Screw: For easy one-step vertical door position adjustment.
